SUMMARY

Master's student in Information Systems Management with 14 months as a data analyst intern and apprentice at the French Alternative Energies and Atomic Energy Commission (CEA): cut a five-day month-end process to a two-minute run and built a web app used monthly by 23 researchers. Member of the winning team of the national DataViz Challenge 2024. Seeking a **business intelligence or data analytics internship abroad, 3 months minimum, between 29 March and 20 August 2027**.

EXPERIENCE

French Alternative Energies and Atomic Energy Commission (CEA), Grenoble, France — **Apr 2025 – Jul 2026**
France's national research organisation for low-carbon energy, digital technology, health and defence.
Three-month internship, then rehired as an apprentice to deploy the tools prototyped.

Data Analyst Apprentice — Sep 2025 – Jul 2026

- Automated the monthly allocation of labour costs to research contracts in Visual Basic for Applications (VBA) and Excel: **five days of manual reconciliation became a two-minute run**, now used by 20 contract managers in four departments.
- Built a self-service life-cycle assessment (LCA) web app in object-oriented Python with Streamlit and Plotly, replacing a manual Excel analysis; **used every month by 23 researchers** across two CEA institutes.
- Gathered user requirements and wrote the contract managers' user guide and the app's developer documentation in English.

Data Analyst Intern — Apr 2025 – Jun 2025

- Wrote the SQL queries and built **three Power BI dashboards** on a 20-table data warehouse for financial reporting, with a star schema, Data Analysis Expressions (DAX) measures and daily refresh; the managers' first graphical view of their figures, still in monthly use.
- Prototyped the labour-cost automation and obtained approval for its roll-out from the department heads.

Association Valentin Haüy, charity for visually impaired people, Grenoble, France — **Oct 2024 – Dec 2025**

- Volunteer Video Editor: produced social media videos, from interviews to editing, voice-overs and English subtitles.

EDUCATION

Grenoble National Polytechnic Institute, Université Grenoble Alpes, France — **Sep 2026 – present**
Two-year Master's in Information Systems Management, first year: information systems governance, IT project management.

Université Grenoble Alpes, University Institute of Technology (IUT2), France — **Sep 2023 – Jul 2026**
Three-year Bachelor of Technology in Data Science (French BUT), Data Visualisation and Decision-Support Tools track.
First place in the national DataViz Challenge, Météo-France, Jun 2024: team ranked first of 15 finalists, from more than 600 students.

Prague University of Economics and Business, Czech Republic — **Mar 2025**
Erasmus+ Blended Intensive Programme in Data Analytics: one week of Power BI in English; winning team in the final challenge.

IAE Savoie Mont Blanc, Annecy, France — **Sep 2022 – Jun 2023**
Bachelor's in Economics and Management, first year (Computer Science, Digital Technology and Industrial Management track).

PROJECTS

- **Access to drinking water, 2026:** built a Power BI report and an R Shiny app (4 tested modules, R in the browser) on WHO/UNICEF data for 235 countries and territories: 2.14 billion people still lack safe drinking water at home.
- **TIMC Laboratory, French National Centre for Scientific Research (CNRS), Jul 2025 – Dec 2025:** analysed the clinical records of 600 patients in R with principal component analysis and clustering, and delivered a Shiny app for liver cirrhosis screening.
- **Campus signage map, 2026:** mapped 162 campus signs and maintenance costs in ArcGIS (arcg.is/1yOCrS0).
- **Tennis analytics, 2026:** analysed the 3,076 matches of the 2024 ATP Tour season in JavaScript; showed that points won on serve explain wins better than break points saved (correlation 0.71 against 0.57).

SKILLS

Data and programming: SQL, MySQL, Python, pandas, Streamlit, Plotly, R, Shiny, VBA, Talend, Git, GitLab
BI and visualisation: Power BI, DAX, Power Query, star-schema modelling, Tableau, Excel pivot tables, ArcGIS
Languages: French: native · Maghrebi Arabic: bilingual · English: B2 (certified) · Spanish and Modern Standard Arabic: intermediate
Soft skills: explaining data to non-specialists, gathering user requirements, user training and handover
MOOC badge: Artificial Intelligence and Society, France Université Numérique, Apr 2026

INTERESTS

Football: team coach · Athletics · Tennis · Video editing
