Portfolio: mohamedbougrara.github.io/portfolio-Bougrara-Mohamed

Internship abroad, 3 months minimum, 29 March – 20 August 2027 · French citizen, EU work authorisation

SUMMARY

Master's student in Information Systems Management with 14 months as a data analyst at CEA, the French public energy research body. Builds SQL and Power BI reporting, Python apps and VBA automation that managers and researchers use every month.

EXPERIENCE

Data Analyst Apprentice, CEA, Grenoble, France — Sep 2025 – Jul 2026

French Alternative Energies and Atomic Energy Commission · rehired after my internship to deploy the tools I prototyped

- Automated monthly labour-cost allocation to research contracts in VBA and Excel: from 5 days to 2 minutes.
- Rolled the tool out to 4 departments and wrote its user guide for 20 contract managers.
- Built a life-cycle assessment (LCA) web app in Python and Streamlit, used monthly by 23 researchers.
- Gathered user requirements and wrote the developer documentation in English.

Data Analyst Intern, CEA, Grenoble, France — Apr 2025 – Jun 2025

- Built 3 Power BI dashboards for financial reporting on a 20-table SQL database, refreshed daily.
- Designed the star schema and DAX measures; managers still use the dashboards every month.
- Prototyped the labour-cost automation and obtained the department heads' approval to roll it out.

PROJECTS

National DataViz Challenge, Météo-France — Jun 2024

- Ranked 1st of 15 finalist teams: analysed French climate data in R and visualised it in Tableau.

Medical screening, TIMC Laboratory (CNRS) — Jul 2025 – Dec 2025

- Analysed clinical records of 600 patients in R (PCA, clustering); built a Shiny app for liver cirrhosis screening.

Access to drinking water — 2026

- Built a Power BI report and an R Shiny app (4 tested modules) on WHO/UNICEF data for 235 countries.

Campus signage map, Université Grenoble Alpes — 2026

- Mapped 162 campus signs and their maintenance costs in ArcGIS (arcg.is/1yOCrS0).

EDUCATION

Master's in Information Systems Management, Grenoble National Polytechnic Institute — 2026 – 2028

Université Grenoble Alpes · information systems governance, IT project management, business intelligence

Bachelor of Technology in Data Science (BUT), IUT2, Université Grenoble Alpes — 2023 – 2026

Data Visualisation and Decision-Support Tools track · Erasmus+ Power BI week in Prague, Mar 2025: winning team

Bachelor's in Economics and Management (first year), IAE Savoie Mont Blanc, Annecy — 2022 – 2023

SKILLS

- **Data and programming**: SQL (MySQL), Python (pandas, Streamlit, Plotly), R (Shiny), VBA, Talend, Git, GitLab
- **BI and visualisation**: Power BI (DAX, Power Query, star schema), Tableau, Excel pivot tables, ArcGIS
- **Methods**: data cleaning, KPI design, PCA, clustering, user requirements, user training
- **Languages**: French (native), Maghrebi Arabic (bilingual), English (B2, Duolingo English Test), Spanish and Modern Standard Arabic (intermediate)

ADDITIONAL

- Volunteer video editor, Association Valentin Haüy, a charity for visually impaired people (Oct 2024 – Dec 2025)
- MOOC badge: Artificial Intelligence and Society, France Université Numérique (Apr 2026)
